You are a reporter for Health World, a health magazine. You interviewed Peter Wong, one of the top athletes in Hong Kong. Write a feature article based on your interview. Report on Peter's sudden rise to fame and the reasons why he is so motivated

Peter Wong Under the Lens

相信你在第一段用 QEBT 節省了不少時間，可繼續在 Feature Article 使用這個框架 (在學習另外一個更進階的框架前，請跟隨這個做法)

Do you know who Peter Wong is? A household name that has garnered plenty of attention in the city, Peter is certainly a sensation in the sports industry. Even if you have never heard of him, I'm certain that you have seen his face in some ice-skating competitions. The fact is that he is a rising athlete who just won the Olympics. What makes him so prominent? Why is he gaining a sudden popularity? What contributes to his sudden rise to fame? Read on and explore more about him!

Triple Q used. Good!

To commence with, Peter's sudden rise to fame obviously links to his prominent performance in sports – his outstanding results in ice-skating competitions. Not only is he the first ice-skating player who won the Olympics for Hong Kong, he is also the second Olympics gold medal winner in Hong Kong after Mary Lee's winning in 1999. It comes as no surprise that this rises so much attention and has been the talk of the town for weeks. Not only is his skills insurmountable, his body movement is also unparalleled. Peter's performance in the Olympics was like a miracle, no one has ever done such high-difficulty movement and has such sophisticated skills. Chris Wong, a veteran in ice-skating curriculum once said, "I believe he is going to be the next 'King of Ice-skating' soon", he added.

Whether he is going to be the next 'King of Ice-skating' is still an unknown, but what is certain is that he is gaining more and more popularity after his outstanding performance in the Olympics. Comment cited to make your point more convincing. Nice!

掌握到正確的 Semi-formal 語調，請記緊當中技術及細節即可

Apart from his prominent performance in the Olympics, his personality is another factor contributes to his rise in fame. After winning the Olympics for the first time in the history, it is reasonable if he becomes rampant. Yet, his after-competition interview says it all. 'I am so thankful for what I have today. However, I must say that without my coach's coaching and my beloved parents' support, never would I won the Olympics. Compared with Johnny Smith and Kate Amber, his humbleness is rare in this industry. You may wonder: is he really that perfect? Some netizens even suggested that 'Peter is faking it'. In fact, I can assure you – never is he faking any of his personality. I once met him in the hallway where he just won a competition. Tired and exhausted, he seemed to be losing lots of energy. But what happened next surprised me – he approached his coach and discussed with him the competition he just had despite his exhaustion. As a winner, he may just go and rest but instead, he sacrificed his time to strive for betterment. It is no wonder that many are attracted by his personality and boost his popularity.

請記緊 Soon 仔框架十分重要，可以幫你輕鬆地爆字，如果你想繼續獲得這個高級別分數，請務必使用這個已被驗證的框架技術

Many of you might question: why is he so motivated? In fact, during our interview with Peter, he revealed his secret to success. 'Talent without work is nothing.' Peter said, 'This phrase is quoted from Cristiano Ronaldo, who has been my idol that motivates me to pursue my dream. Even if you are gifted, without hard work you are nothing. That's why I keep practising ice skating every day and strive for betterment.' It comes as no surprise that his skills are so sophisticated and he has such streamlined body movement. Nevertheless, when facing insurmountable challenges, Peter still get ways to deal with them. It's normal for us to face hardships and uncertainties. Resting is a way for us to prepare for our journey. Perhaps he is right, and maybe that's the reason why he isn't showing up so frequently as in the past recently. Whether it is correct or not, I am sure we are all waiting for his come back with his best mood.

elaboration is done to make your point more clear! Nice work!

coaches or even his junior teammates frequently about what he did wrong, for example which move has gone wrong or how he can do better, the phrase, "Sorry, but I am not sure whether..." is always hanging around his mouth. Even if he is a world champion player, he wouldn't think it is a shame to ask or have people correcting him due to the fact that a lot of players would be proud of their results already and would think themselves as the bestest among the world. Installed with a humble personality, Peter achieved increasing results, won a lot of gold medals from different international competitions, raising the awareness of the public to Hong Kong sports. good that u added others' opinions to support your point

Irrespective of what you think about Peter's sudden rise to fame, I think we can all come to an agreement that Peter really does deserve to be crowned as one of the top athletes in Hong Kong. Go check out his outstanding performance in different world-wide competitions- perhaps you will also be motivated by his burning passion on fencing and also be inspired to explore your own talents.
